

### 5a In-flight option

★ The parts coloured with  are used to assemble model in-flight.

### 5b Landing gear down option

### 6 Decal placement

AiP10001

# 1/144 SCALE THUNDERBIRD 1

#### Paint colour references:

We recommend using the following Humbrol paint colours: (Paints not included)

-  11 SILVER
-  33 MATT BLACK
-  60 MATT SCARLET
-  89 MATT MIDDLE BLUE
-  140 MATT GULL GREY

#### How to apply decals:

Waterslide decals are supplied with this model kit. Please follow these instructions when applying.

- 1  • Cut out the decal to the required shape using scissors or a craft blade.
- 2  • Dip the decal in water for 10 to 20 seconds.
- 3  • Place decal in the desired position and slide it gently from the backing sheet using tweezers.  
• Adjust position if required and dry excess water with a soft cloth.

The original Thunderbirds television series was produced in a time before CGI and computers. Skilled model makers and technicians created several models in varying scales depending on the shot required in the storyline. This coupled with camera lighting from different angles means the various craft do appear to be different colours in certain scenes. The paint codes provided are a basic guide and we would suggest watching the episodes and referring to the box photo for further detailed information.

You will also need: (not included)

-  Plastic Cement
-  Sprue Nipper
-  Craft Knife
-  Tweezers

#### Symbol guide:

-  Glue here
-  No glue required
