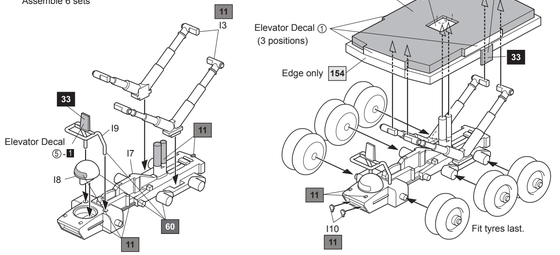
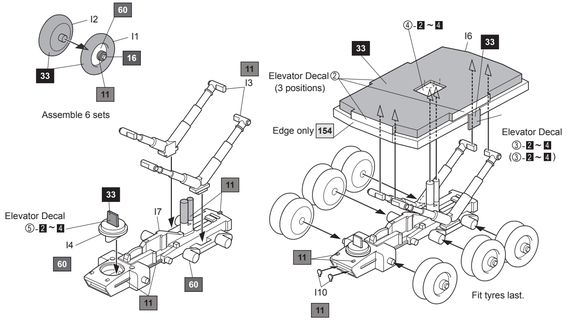
Assemble 6 sets



12 Subsidiary Elevator Cars (assemble x 3)

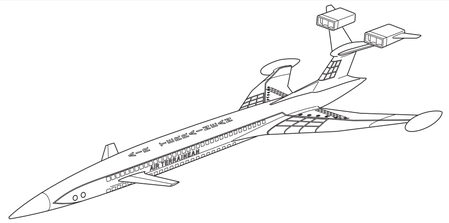


AiP10006

1/350 SCALE FIREFLASH

A GERRY ANDERSON PRODUCTION

THUNDERBIRDS



Paint colour references:

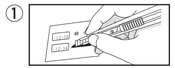
We recommend using the following Humbrol paint colours:
(Paints not included)

11	SILVER	60	MATT SCARLET
16	GOLD	65	MATT AIRCRAFT BLUE
33	MATT BLACK	81	MATT PALE YELLOW
34	MATT WHITE	104	MATT OXFORD BLUE
53	GUNMETAL	154	MATT INSIGNIA YELLOW

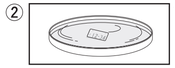
The original Thunderbirds television series was produced in a time before CGI and computers. Skilled model makers and technicians created several models in varying scales depending on the shot required in the storyline. This coupled with camera lighting from different angles means the various craft do appear to be different colours in certain scenes. The paint codes provided are a basic guide and we would suggest watching the episodes and referring to the box photo for further detailed information.

How to apply decals:

Waterslide decals are supplied with this model kit.
Please follow these instructions when applying.



• Cut out the decal to the required shape using scissors or a craft blade.



• Dip the decal in water for 10 to 20 seconds.

• Place decal in the desired position and slide it gently from the backing sheet using tweezers
• Adjust position if required and dry excess water with a soft cloth.

You will also need: (not included)

Plastic Cement | Sprue Nipper | Craft Knife | Tweezers

Symbol guide:
